16th September 2015

Dear Parent/Carer

In line with government policy, the School Nursing service is aiming to involve families and young people in how health resources are effectively targeted in the future.

In order to achieve this, your child will be involved in completing a simple online questionnaire about their health, wellbeing and lifestyle behaviour on the following date in school: **Monday 19th October.**

Although anonymous information may be shared with other agencies to improve services, all personal information collected from this questionnaire will be treated as confidential and all data will be stored securely.

Following completion of the questionnaire, your child may be seen at their own request or at the request of the School Nursing Team.

If you have any concerns or worries you wish to discuss or if you do not wish for your child to participate in the questionnaire, please contact me on the above number before the planned session.

Yours sincerely

School Nursing Service
