

## The School Development Plan

As a school, we feel very proud of what the children achieve every day. **Our school has gone from strength to strength** during the last few years and we want to continue to grow and **provide the best possible education we can** for our community. To help us to do this each year, we write a plan of what we want to achieve and share it with our school community.

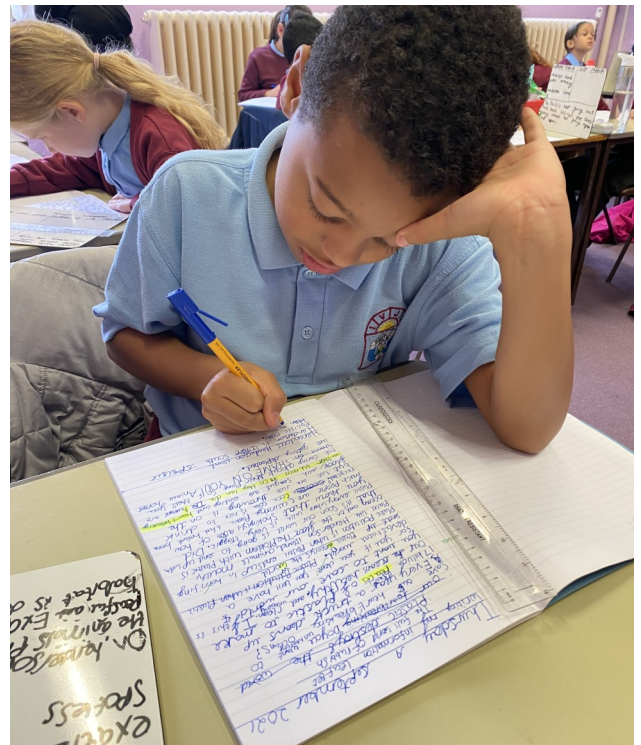

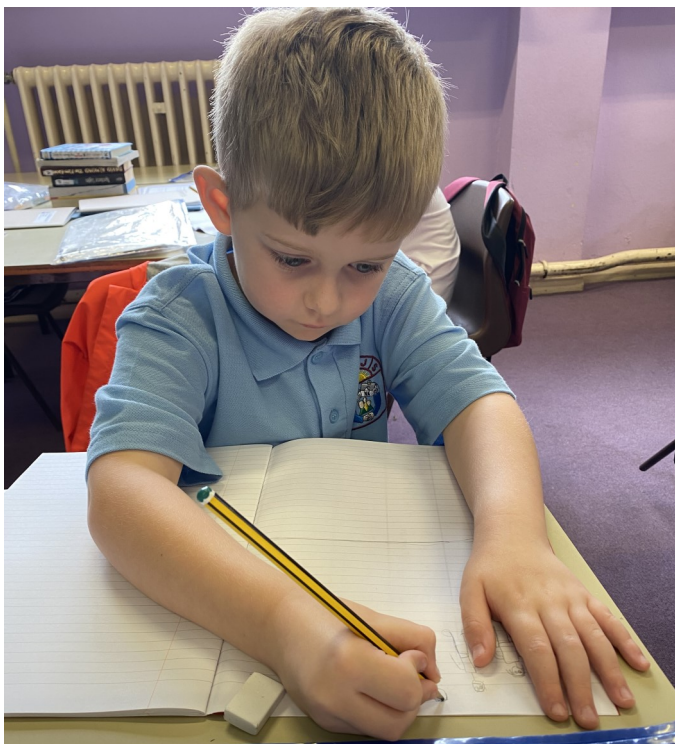

### Update

This newsletter is to update you with progress against our School Development Plan. Every school has a plan that breaks down the areas it would like to develop. Our plan is based around 3 areas. These are: Believe, Achieve and Succeed Together (this is our school motto).

### Priorities

- Oracy and vocabulary
- Providing new opportunities after lockdown
- Supporting pupils, families and the community.

# Believe

## Our Priorities this year:

1. To develop our provision for Nurture and emotional literacy support.
2. To develop children's understanding of global diversity.
3. To develop outside play and learning.

## In other words....

We want every child to feel safe and secure at school. We want pupils to be able to express themselves, celebrate their individuality and be respectful of others. We hope that pupils will enjoy their playtimes and have opportunities to learn through play.

## How you can help?

Talk about feelings at home, embed the view that everyone is unique and this should be respected and celebrated.

# Achieve

## Our Priorities this year:

1. To develop pupil's oracy skills across the curriculum.
2. To put a clear progression of knowledge and skills in place on our curriculum overviews, ensuring progression between year groups.
3. To develop teaching of reading, writing and maths in order to narrow the gap for all.

### In other words...

We want to support pupils in learning to talk for different purposes and learn through talk in all curriculum areas.

We want to make sure all children meet their full potential in core curriculum areas.

We want to ensure that everyone in school understands what children have learnt, are currently learning and will go on to learn in all curriculum areas.

During the year we will keep you up to date on how we are progressing with these priorities. However, if you have any questions or comments at any point during the term, please come and talk to us.

# Succeed Together

## Our Priorities this year:

1. To develop our support to parents, families and the community.
2. To ensure all pupils are given the opportunity to participate in new sports.

### In other words...

We want our children and families to be healthy and have access to the support they need to succeed. We want all pupils to have new opportunities at school and enjoy their learning.

### How you can help?

Encourage your child to have a go at new things. Talk to someone at school if you have any worries or concerns so that we can do our best to help.

Believe. Achieve. Succeed Together.
