Work of the Week

Snakes are as long as ten trees and as fierce as lions! They are slithery and have slimy scales. When they hunt they are silent and sly. The horrifying snakes kill and murder. When they are angry they are like wild vampires. Snakes are the devils of the jungle!

Mahmoud

When tortoises are scared they hide under their shell and use it as armour. Tortoises are never in a hurry, they are known for their survival skills and they plod around noisily. Will he ever get anything done?

Julian

The snake slithered silently and ferociously to attack its prey. A snake curls itself into a ball and camouflages itself in the brown trees. He moves to its rocky cave slowly. Some are poisons, some are not but they are just as deadly! These animals are as dangerous as a dinosaur.
