

# Y6 Science Key Vocabulary

<u>Autumn Term</u>			<u>Spring Term</u>		<u>Summer term</u>	
Inheritance	Habitat	Prokaryotes	Electricity	Waves	System	Digestive
Variation	Climate	Mammals	Thomas Edison	Beam	Human	Gall bladder
Parents	Natural selection	Independent	Nikola Testa	Photon	Circulatory	Intestine
Genes	Recessive	Virus	Alessandro	Energy	Circulation	Pancreas
Advantageous	Phylum		Alternating	Vacuum	Skeletal	Rectum
Survival	Class		Current	Reflection	Muscular	kidney
Evolution	Organism		Direct	Angle	Digestive	Vitamins
Adaption	Eukarya		Battery	Incidence	Organs	Minerals
Mutation	Vertebrates		cell	Periscope	Blood vessels	carbohydrates
Fossil record	Amphibians		Wires	Refraction	Aorta	degrees
characteristic	Dependent		Switch	Bend	Atrium	Legal
Trait	Variable		Scientific	Lens	Artery	Illegal
Reproduce	Domain		Informal	Focal point	Vein	Heart
Life cycle	Family		Circuit	Transparent	Pulmonary	Lifestyle
Disadvantageous	Microorganism		Diagram	Refract	Valve	
Physical	Achaea		Voltage	Spectrum	Trachea	
Generation	Eukaryotes		Brightness	Wavelength	Bronchus	
Classification	Invertebrates		Increase	Prism	Diaphragms	
Dominant	Controlled		decrease	Filter	Sacs	
Palaeontology	Kingdoms		Comparative	Absorb	Alveoli	
Process	Genus		Light	Opaque	Capillary	
Environmental	Hierarchy		Source	Distance	Functions	
Organism	Mineral		Travel	Cast	intercostal	
species	Bacteria		Straight line		nutrients
